Foreword

The North Carolina Public Schools Statistical Profile is a collection of information about North Carolina's elementary and secondary schools. This is the twentieth edition of the publication. It was initiated in 1975.

The purpose of this book is to provide general statistical data to the public, professional educators, and the General Assembly. This profile includes information on public school pupils, personnel, and finances. Part I presents state totals with local education agency totals for some tables. Part II contains a two-page section for each local school system.

This publication would not be possible without the full support and dedicated efforts of public school administrators, principals, and teachers. Their efforts in making this information available are gratefully acknowledged.

Part I:

State Summary

Pupil Information

Pupil Accounting

Pupil accounting data are among the most useful sources of information available to state and local administrators and to the public in general. This information provides the core of the data bank used in evaluation, planning, allocation of funds, and measurement of compliance with federal and state regulations. The basic pupil accounting form used in North Carolina is the Principal's Monthly Report. There are nine reporting periods of twenty school days each. Enrollment (ENROLL), average daily membership (ADM), and average daily attendance (ADA) are calculated from this report. Membership-last-day (MLD), promotions (PROM), and nonpromotions (NP) are derived from the ninth month report. Tables 1-6 present state totals of these student counts for the past ten years. First month 1993-94 figures are included for enrollment, ADM, and ADA. Pupil accounting data for each local education agency (LEA) appear in Part II.

The definitions of pupil accounting terms used in this publication are:

Enrollment: The term enrollment represents the number of pupils registered in the state's public schools. Once a pupil is initially counted in the enrollment figure, he/she remains in that count throughout the school year. Students transferring to the North Carolina public school system from another state or from non-public schools are added to enrollment. Enrollment is not reduced by transfers, withdrawals, deaths, or midyear graduations. The end of the year enrollment thus shows a higher count than the actual number of students in school. Final enrollment, therefore, should not be compared to first month enrollment.

Average Daily Membership: The total number of school days within a given term or school year that a student's name is on the current roll of a class, regardless of his being present or absent, is the "number of days in membership" for that student. The sum of the "number of days in membership" for all students divided by the number of school days in the term yields ADM. The final average daily membership is the total days in membership for all students over the school year divided by the number of days school was in session. Average daily membership is a more accurate count of the number of students in school than enrollment.

Average Daily Attendance: Attendance is the presence of a student on days when school is in session. A student is counted as present only when he is actually at school, present at another activity sponsored by the school as part of the school's program, or personally supervised by a member of the staff. The total number of days of attendance for all students divided by the total number of school days in a given period gives the average daily attendance (ADA).

Membership Last Day, Promotions, and Nonpromotions: Membership Last Day refers to the number of students remaining in membership as of the last day of school for the academic year. Students who are in membership on the last day are either advanced to the next grade (promotions) for the coming school year or retained in the same grade (nonpromotions) for the succeeding school year. Promotions and nonpromotions have been adjusted after summer school for 1986-87 and following years.

NOTE: Tables 1-6 combine into one column exceptional (EXCP) students served in self-contained classrooms with trainable mentally handicapped (TMH) students. The pupil accounting tables in Part II break these students into two columns.

Nonpromotion Rate by Grade

Statewide nonpromotion rates over a ten-year period are presented in Table 7. The rates were computed by dividing the number of nonpromoted students (NP) by the last school day membership (MLD). Nonpromotion rates for individual LEAs can be calculated using NP and MLD figures given in Part II.

Since promotion policies vary among LEAs, care should be exercised in making comparisons of nonpromotion rates, particularly at the secondary level. Many secondary schools require the completion of a fixed number of Carnegie units or of a required curriculum to advance to the next grade level. In many cases, nonpromotion of a grade in high school may indicate the failure of a single course rather than the entire or overall course load for that grade level.

In 1986, the state mandated summer school programs in all school systems. Many students who are not promoted at the end of the regular school session attend summer school. A number of them are promoted to the next grade after successfully completing the summer session. Nonpromotion rates for 1986-87 and following years reflect the results of summer school promotions. Table 8 reveals the impact of the 1993 summer school on the 1992-93 nonpromotion rate.

Projected Final Average Daily Membership

The method used in the projection of school final average daily membership is known as the cohort survival method. With this method, residential births and grade membership are used to calculate the grade survival ratios. In an effort to obtain stable ratios, a period of five years of historical data is used. The projected information has proven valuable to all phases of school planning both at the state and local levels. Table 9 summarizes ADM projections by grade level for the state while Table 10 gives the projected final ADM for each LEA.

Exceptional Pupils

Information on the numbers of exceptional students identified and served by primary exceptionality classification as of December 1 is a part of the certified headcount submitted to Student Information Management/Accountability Services each year. The figures in Table 11 represent an unduplicated count of students (ages 0-22) who have a required Individual Education Plan (IEP) and who are eligible for federal (Title VI-B) funds.

Pupil Membership by Race/Ethnic Origin

Information on pupils in membership by their race/ethnic origin is collected biennially by the Department of Public Instruction for the Office for Civil Rights of the United States Department of Education. During non-survey years, the same data is collected by the Department of Public Instruction. Maintaining this information annually is required to ensure compliance with Title VI of the Civil Rights Act of 1964 and Title IV of the Education Amendments of 1972. School membership is reported by race/ethnic origin as of the end of the first school month. These figures should not be confused with average daily membership.

Table 12 is a summary of the pupils in membership for 1993-94 by race and sex for each LEA and also gives state totals. Table 13 presents pupil membership by race from 1974-75 to 1993-94.

High School Graduates Intentions

At the end of the school year, guidance counselors and principals at every high school report the postgraduate intentions of their diploma recipients. The report includes all those who have completed the requirements for graduation since the end of the previous school year. Intentions of the graduates are categorized as follows:

- enrolling in senior (four year) institutions (public and private);
- enrolling in community and technical colleges;
- enrolling in junior colleges;
- enrolling in trade, business and nursing schools;
- enlisting in military service;
- seeking employment;
- other.

Table 14 is the state summary of 1993 graduates' intentions. Table 15 presents a five-year history of this information. High school graduates' intentions for each LEA can be found in Part II of this publication.

Projections of High School Graduates

A ten-year projection of the number of high school graduates of local public school systems is presented in Table 16. The projections are updated annually in the fall and are used by planners of post-secondary institutions. The future number of high school graduates in each LEA is determined by the prevailing birth counts, immigration and emigration rates into and out of the region, promotions, and school dropout patterns.

Public School Dropout and Retention Data

A dropout is a student who leaves school before graduation or completion of a program of study for any reason except death or transfer to another school. Students drop out of school for many reasons – academic failure, discipline problems, employment, illness, marriage, family instability, and/or dislike of school. The statistics on dropouts in Table 17 are compiled from information submitted to the Department of Public Instruction by local school systems.

There are two commonly used measures of dropout rates. "Annual dropout rate" measures the number of students that drop out of grades 7-12 in one school year. The other, sometimes referred to as "non-completion rate," attempts to measure the number of dropouts from one cohort group over a four-year period as they go through the seventh through twelfth grades. In Table 17, the dropout rate given in the last column is the annual rate. The second type of dropout rate may be estimated by subtracting the "retention rate" from 100. Retention rate is the ratio of the current year twelfth grade class on the last day of school to the ninth grade class of four years ago. Retention rates are not adjusted for migration trends or nonpromotion rates.

During the 1992-93 school year, 3.06 percent of the students in seventh through twelfth grades dropped out of school.

Please bear in mind the following when using the data in Table 17:

- data prior to 1989-90 were estimated. Later data beginning with 1989-90 reflect what is reported by the school systems;
- figures since 1989-90 include both regular and alternative school data, whereas the prior estimates kept them separate and reported only estimates for regular high schools;
- and in the 1991-92 school year, North Carolina began using a new method of calculating the annual dropout rate. Dropout information is now reported for grades 7-12; therefore, these new lower rates are no longer high school dropout rates.

NOTE:

(1) Extended day memberships were not included in the non-promotion rates prior to 1984-85.

(2) Exceptional pupil memberships are included only in the total non-promotion rate.

(3) 1986-87 was the first year that the rates were revised after summer school promotions.

* Exceptional students in self-contained classes.

** Trainable mentally handicapped students.

NOTE: Vance County started reporting student enrollment data by groups of grade-span in 1992-93. The system can no longer identify its students by individual data. Therefore, the statewide ADMs are not true grade enrollments. The projected ADM of each grade reflects the new reporting procedure of student data of the Vance County school system.

* Unduplicated count of children (ages 0-22) with individual education plans and eligible federal (Title VI-B) funds as of December 1, 1993.

TABLE 11 *(Continued)*
PUPILS IN MEMBERSHIP BEING SERVED BY EXCEPTIONAL CHILDREN PROGRAMS, 1993-94*

AG - ACADEMICALLY GIFTED
AU - AUTISTIC
DB - DEAF/BLIND
EH - EMOTIONALLY HANDICAPPED
EM - EDUCABLE MENTALLY HANDICAPPED
HI - HEARING IMPAIRED
LD - SPECIFIC LEARNING DISABLED
MU - MULTI-HANDICAPPED
OH - OTHER HEALTH IMPAIRED
PG - PREGNANT
OI - ORTHOPEDICALLY IMPAIRED
SI - SPEECH-LANGUAGE IMPAIRED
SP - SEVERELY/PROFOUNDLY MENTALLY HANDICAPPED
TM - TRAINABLE MENTALLY HANDICAPPED
VI - VISUALLY IMPAIRED
TB - TRAUMATIC BRAIN INJURED
PD - PRESCHOOL DEVELOPMENTALLY DELAYED

Public School Personnel Summary

Table 18 is a summary of all full-time personnel employed as of October 1, 1993, at the school and central office levels. The source is the Public School Full-Time Personnel Report, which categorizes personnel by activity assignment, sex, race, and source of funds. This report is the only source of data on all full-time personnel both instructional and noninstructional.

Public School Personnel summaries for each LEA are presented in Part II. Activity assignment classifications which are not self-explanatory are defined below.

Officials, Administrators, and Managers - Persons who set broad policies, exercise overall responsibility for execution of those policies, or direct operations of the school system – superintendent; deputy, associate, and assistant superintendents; school business officials; directors and administrators of districtwide programs; and other professional administrative staff.

Elementary Teachers - Teachers of kindergarten through eighth grade.

Secondary Teachers - Teachers of ninth through twelfth grade.

Other Teachers - Teachers of both elementary and secondary students. Teachers who cannot be defined clearly as either elementary or secondary.

Guidance Personnel - Includes counselors, student counselors and other guidance personnel.

Psychological Personnel - Includes psychologists, psychometrists, psychiatrists, and psychological-social workers.

Librarians and Audio-Visual Staff - Staff members who are responsible for either school libraries or for preparing, caring for, and making available to instructional programs equipment, materials, scripts, and other aids which assist teaching through sight and sound.

Consultants and Supervisors of Instruction - Staff members who provide leadership and expertise in a field of specialization for the purpose of improving the performance of teachers and other instructional staff.

Other Professional Staff - Includes persons who cannot be properly included in other professional categories such as non-classroom teachers, dentists, speech therapists, school social workers, community workers, attendance officers, attorneys, architects, engineers, registered nurses, and other non-instructional staff.

Technicians - Includes computer programmers and operators, film inspectors, projectionists, graphic artists, drafters, engineering aides, nurses (licensed, practical or vocational), dietitians, photographers, radio operators, scientific assistants, technical illustrators, and other technicians.

Clerks/Secretaries - Includes secretaries, bookkeepers, messengers, office-machine operators, clerk-typists, stenographers, court transcribers, hearing reporters, statistical clerks, dispatchers, license distributors, payroll clerks, and kindred workers.

Service Workers - Paraprofessionals and persons in cafeteria, maintenance, and transportation programs, custodial workers and members of maintenance crews, security guards, etc.

Skilled Workers/Craftsmen/women - Includes mechanics, repairers, electricians, heavy equipment operators, stationary engineers, skilled machine operators, carpenters, compositors, typesetters, and kindred workers.

Laborers - Persons who perform manual labor such as garage laborers, car washers, greasers, gardeners, and groundskeepers.

Experience Status of Instructional Personnel

The experience status of instructional personnel is collected annually on the Professional Personnel Activity Report or the School Activity Report. These reports include all school-level professional personnel and any central office personnel who have student contact. The information presented in Table 19 by LEA and state totals is a summary of the experience status of all full- and part-time principals, assistant principals, guidance counselors, librarians, and classroom teachers.

Highest Degree Held by Instructional Personnel

The information presented in Table 20 represents the educational level of all certified instructional personnel employed this year (full- or part-time) at the school and central office levels. "Instructional personnel" are all professional educators with direct instructional responsibility such as principals, teachers, librarians, guidance counselors, and supervisors of instruction. Please note that it is the highest degree held that is reported here, not necessarily the degree upon which salary is based. The information in this table comes from the 1993-94 teacher certification files.

Selected Characteristics of Classroom Teachers

The selected characteristics of classroom teachers in Table 21 have been compiled from the Professional Personnel Budget (408) and teacher certification files for the 1993-94 school year. The percentages and ranks that have been computed are based upon full-time-equivalents of employment.

In Table 21, the definition of "classroom teachers" also includes guidance counselors and librarians. The percent and rankings of classroom teachers with graduate degrees include all who hold a degree higher than a bachelor's. The percent and rankings of classroom teachers with no prior experience include all who are teaching this year for the first time.

Selected Statistics of Local Salary Supplements

The salary supplement information in Table 22 was compiled from Local Salary Supplement Reports. It provides data on the number of LEAs paying local supplements, and the amounts paid by LEAs with the highest and lowest supplements.

Salary supplements are monies paid from local funds to augment the salaries of persons paid on the state salary schedule. Not every LEA pays supplements to all employees.

Financial Information

This section is designed to provide information about the financing of public education. Since the fiscal years and the school years do not coincide, the data in this section are one or more years behind the data found in other sections of this publication. Data obtained from external sources, such as the disposable income by counties, may lag two years behind.

The total expenditures for a school year are grouped into two major categories:

- "current expense expenditures" are all expenditures connected with the daily operation of the nearly two thousand schools of the state.
- "capital expense expenditures" consist of all disbursements made for the construction of new buildings and grounds, reconstruction or repair of old buildings, and the acquisition of equipment with a lifetime greater than a year.

The amount of capital expense expenditures fluctuates considerably from year to year. The current expense expenditures on the other hand, being closely tied to the number of students, are more stable. All derived statistics are computed for current expense expenditures only. This is especially true for statistics that can be meaningfully compared over several years.

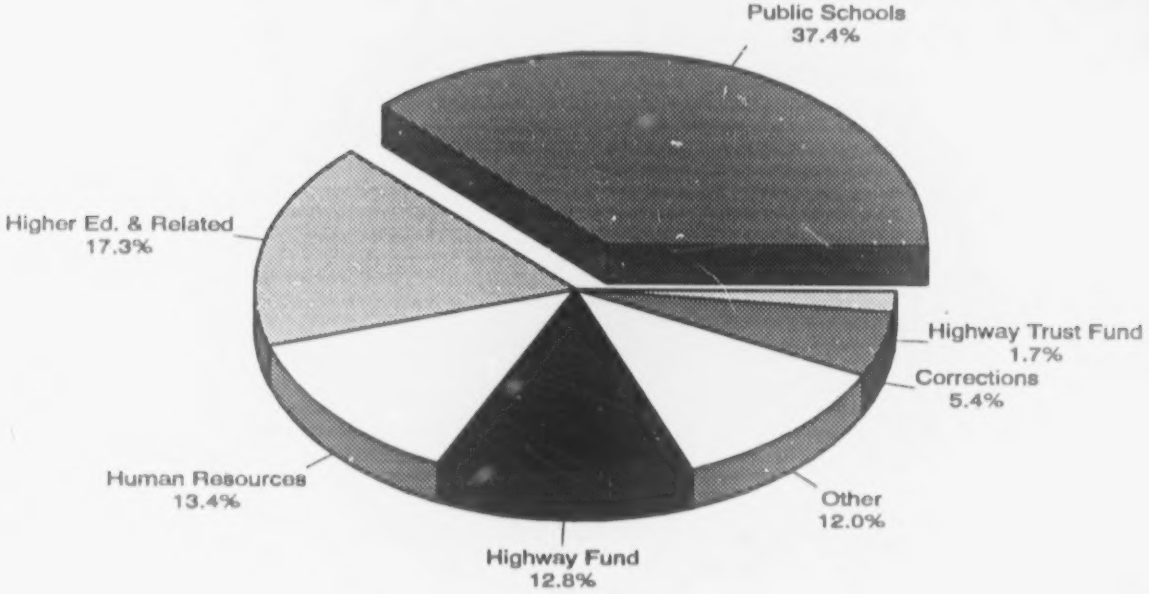
The current expense expenditures are obtained from the Annual Financial Report submitted by local superintendents at the close of each fiscal year. Although the contents of this report are not audited, they are an accurate accounting of revenues and expenditures by each LEA for the preceding fiscal year. By legislative mandate, long-term debts of school systems (debt service) are a part of the county budget and controlled by the commissioners of the 100 counties and, therefore, not reported on the Financial Report. The report contains all current expenditures for public kindergartens, elementary and secondary schools, and special schools for exceptional children. However, expenditures for the Governor Morehead School for the Blind, the North Carolina Schools for the Deaf, the Fort Bragg and Camp Lejeune military base schools, and the Cherokee Indian reservation schools are not included.

One derived statistic, "per pupil expenditure," is of special interest since it is quoted and compared most often. In the tables of this section, it is computed only for current expense expenditures (excluding community services, Head Start, adult education, and inter/intra fund transfers) by using final average daily membership (ADM). Other publications, especially those from national sources, use average daily attendance (ADA) in computing this statistic. Since average daily membership is greater than average daily attendance, the latter method yields a higher figure for the "per pupil expenditures." The average daily attendance figures in other sections of the Profile can be used to convert per pupil expenditure figures contained in this section to ones based on average daily attendance.

The expenditure data contained in this section have three distinct funding sources. The first two, "State" and "Federal," are the amounts spent for education from the budgets of state and federal governments respectively. The "local" expenditures, on the other hand, are not synonymous with the amounts expended by local county governments. All expenditures not funded by the state or the federal governments are regarded as "local" expenditures. As such, they include all funds supplied from local governments and other local sources.

There are two tables in this section that list the per pupil expenditures for each school system. One includes all current expense expenditures while the other excludes all expenditures connected with child nutrition activities. The need for two separate tables emerged from our definition of "local" expenditures. Since the expenditures students make in purchasing their lunches are not funded by the state or federal governments, they are regarded as part of the local expenditures. In some contexts, however, there is a need to bring the local expenditures as close to the amounts spent by local governments as possible. The second per pupil expenditure table is designed to respond to that need. Current expense expenditures are given by source of funds and on a per pupil basis for each LEA in Part II of this publication.

TABLE 23
STATE OF NORTH CAROLINA
EXPENDITURES FOR THE FISCAL YEAR ENDING JUNE 30, 1993



GENERAL FUND:			
Education:			
Public Schools	$3,399,653,728		
Higher Education	1,516,616,635		
Related Education Activities	55,140,312 (a)	$4,971,410,675	
Human Resources		1,222,683,543	
Local Government Tax Reimbursement		231,052,935	
Corrections		488,715,634	
Environmental Health & Commerce		236,057,070	
Judicial		227,728,247	
General Government		202,931,719	
Debt Service		80,219,334	
Public Safety & Regulation		63,299,166	
Agriculture		38,008,643	
Legislative		21,733,542	
Total General Fund			$7,783,840,508 (b)
Total Highway Fund			1,165,066,065
Total Highway Trust Fund			149,919,796
TOTAL EXPENDITURES			$9,098,826,369

NOTES: Expenditures from special funds, from institutional earnings, from Governor's Highway Safety Program funds, from Federal Aid and for permanent improvements other than roads are excluded. Highway expenditures from Federal Aid amounted to $601,877,796.

(a) Includes expenditures of $40,045,899 for operation of the Department of Cultural Resources, expenditures of $7,914,978 for the North Carolina School of the Arts, and expenditures of $7,179,435 for the North Carolina School of Science and Mathematics.

(b) Excludes $95,205,570 for capital improvements.

The per capita income figures are calculated and periodically revised by the Bureau of Economic Analysis, U.S. Department of Commerce, using the estimates of the civilian population and personal income. The income figure represents income received from all sources and is measured before deduction of income and other personal taxes but after deductions for social security, government retirement and other social insurance. It can include wages, proprietor income, rental income, dividends, interest, and government and business transfer payments. Other non-money transfers are included such as food stamps, health benefits and subsidized housing or other non-money income. The total personal income for the county is divided by the estimated population of the county to produce per capita income. These are the estimates as of March 1994.

NOTE: Figures are based on the data submitted on the Annual Financial Report.

Transportation

Pupil transportation data for 1992-93 is compiled from the State Public School Fund, the Federal Grant Fund, the Annual Financial Report, and the Division of School Services records. In counties that contain more than one LEA, the share of county and city transportation costs are estimated by prorating costs in proportion to the total bus miles logged by each LEA. Items such as contract transportation that are allocated directly to each LEA are excluded from the proration. Costs of bus replacement are included in transportation figures.

School Buses

- 12,836 school buses were in operation in 1992-93

Pupils Transported

- 681,894 pupils were transported to and from school each day (includes contracted transportation)
- 680,219 pupils were transported by school bus
- 65.9 percent of the total public school ADA was transported to school
- 73.8 percent of all transported pupils were of the elementary school level, 26.2 percent were high school level
- 53.0 pupils were transported by the average bus each day

Miles

- Total annual mileage for all buses was 126,603,519
- Buses traveled 703,353 miles daily
- The average bus traveled 9,863 miles for the year; 55 miles each day

State Cost of School Transportation

- The total state cost of school transportation was $155,324,476 including contract transportation and replacement buses
- The total state cost of contract transportation was $4,864,083
- The total state cost of transportation by school bus, including bus replacements, was $150,460,393
- The total state cost of bus replacement was $15,531,558
- The average state cost of transportation by school bus, including bus replacements, was:

State Expenditures Only	
$11,721.75	per bus for the school year
$65.12	per bus per day
$221.19	per pupil for the school year
$1.23	per pupil per day
$1.19	per bus mile of operation
